Jesper Rönngard & Per Abrahamsson, founders

Dear guest

Thank you for your time and interest in our services. Over the last 16 years, close to 200 000 sailors have sailed one of our Navigare yachts! Now with bases in nine different countries and a fleet of approx. 250 yachts, we hope to be able to accommodate your sailing wishes.

At Navigare we try to combine the advantages of a larger fleet, like good processes and scale advantages, with the essential local experience from many different countries. You as a guest will always be at the centre of our attention. Our exceptionally skilled staff will always make you feel right at home on the yacht.

We focus on the details. At Navigare, the plotter is always located in the cockpit where it is most useful and the yacht is equipped with that extra mooring rope or stern fender needed. In every yacht there is a local GSM phone to reach the base cost free, a welcome pack waiting for you and, if needed, blankets tucked into duvet covers.

The core and heart of this company rests upon all our service-minded and hardworking co-workers. Without our now over 80 full-time employees and as many seasonally employed ones we could never have gotten to be where we are today. Thank you all!

We expect that our guests will want to go to new destinations and to be able to sail the latest models from the leading European yards, so we keep developing our offer in order to meet your expectations. At the same time, you will expect us to keep up the good service and quality on the existing yachts and bases. We will do all this...and a little more!

Come sail with us, let's share experiences together.

Jesper Rönngard

Croatia's coastline has a Mediterranean climate with very mild winters and hot, sunny summers. The inland has a moderately warm and rainy continental climate.

With an impressive average of 2,600 hours of sunshine per year, the Croatian part of the Adriatic Sea is one of the sunniest in the Mediterranean and the average summer temperatures range between 25 °C and 27 °C.

CROATIA

MORE THAN A THOUSAND ISLANDS

Trogir is one of the best-preserved medieval towns in Europe. It is situated between the cities of Split and Šibenik and lies in the surrounding area of Split airport. Take some time to explore narrow cobblestone streets with their wonderful little restaurants, local bars and small boutiques.

Not only is the Yacht Club Seget in Trogir among the region's newest marinas, but it is also the most modern yacht club in the area. Experience fine dining, delicious menu and exquisite wine and cocktail list with friendly staff and exceptional service in the marina restaurant. You will also find a beautiful outdoor terrace with swimming pool in the marina.

If you prefer a 'one-way' charter, we highly recommend the city of Dubrovnik in the south of Croatia as your starting or ending point.

Take your time to explore this UNESCO World Heritage Site with its beautiful marble streets, the old harbour and impressive churches. The ancient walls that were built to protect the city from intruders are wonderfully preserved and exude the history of the rich Byzantine Empire. The sense of awe never fails to descend when you set eyes on the beautiful old town.

Dubrovnik is nicknamed "Pearl of the Adriatic".

The charming city of Šibenik is known for its medieval fortresses, national parks, the UNESCO-protected St James cathedral and Krka Waterfalls. According to National Geographic, the nearby-situated Kornati archipelago is the best sailing region in the world. You can choose Šibenik as your starting or ending point for your charter holiday. The unique archipelago landscape sharply contrasts green vegetation, deep blue sea and bright blue skies with many charming harbors and relaxing bays.

THE COASTLINE

Croatia's scenic Adriatic Sea coast is scattered with more than a thousand islands. Some are entirely covered with lavishly green vegetation; others mainly consist of impressive rock formations.

Some of them are uninhabited; others have emerged into vibrant party centres buzzing with hospitality and entertainment. However, one thing they all have in common is that they are exceptionally beautiful.

You will hop from one gorgeous blue bay to the other. You will dive in the clearest waters and enjoy the warmth of local hospitality in the picturesque island towns.

The Croatian cuisine is pure and down to earth, dominated by fine meat and freshest fish. Make sure you have enough time to explore amazing hidden outdoor bars with sunbeds scattered over impressive rocks. Enjoy a refreshing drink whilst listening to some relaxing tunes playing in the background. Life is good!

WITH THE WIND IN YOUR

GREECE AND ITS ISLANDS

With around 6000 islands seemingly scattered by the gods themselves, proper postcard surroundings and the azure Mediterranean waters, it is safe to say that Greece is any sailor's dream destination. From calm winds in the more protected areas to rough open sea sailing, Greece brings you exciting new experiences every day.

You will discover picturesque villages with great local hospitality and experience friendly atmosphere of everyday Greek island life. Listen to whispers of ancient heroes, dance the sirtaki and indulge yourself in the famous Greek cuisine with specialities such as souvlaki, mousakka and kleftiko.

If you are planning a shorter one-week charter, we recommend you to focus on a specific area of your likings since the distances are fairly long. A two-week holiday will, of course give, you the

opportunity to explore more of the Greek wonders, but it also allows you to spend some extra time in your favourite spots.

The ideal time to sail around the Greek islands is from April to October with the high season stretching from June until the end of September. Needless to say that these are the warmest and busiest months. In case you are predominantly seeking for some peace and quiet, the before and after high season weather is still very pleasant and there are fewer visitors.

When chartering a bareboat without staff, Navigare Yachting will provide you with a unique service phone for emergencies and technical assistance. Whether you are experiencing yacht related issues or you would like to reserve a restaurant for the evening, our base managers will be happy to assist you.

The predominantly Mediterranean climate with many hours of sunshine throughout the year is perfect for sun seekers.

The winters are fairly mild in the south of Greece and its islands, but the northern regions and mountain areas are much colder and often snow-covered during the winter months.

From November until March there might be some rainfall, but Greek summers are hot and dry while the Meltemi northern winds offer some relief from the heat.

Temperatures in January range between 5.4 °C and 13.3 °C. July and August are the hottest months with temperatures easily reaching 30°C to 35°C.

The climate in Turkey is diverse and ranges from Mediterranean to Continental. Summer temperatures in some parts of the country reach +40°C. The coast bordering the Aegean and the Mediterranean Sea has a mild Mediterranean climate and those coastal areas on the Black Sea have a temperate Oceanic climate.

SAILING ROUTES

Sailing the clear blue waters of Turkey’s Lycian or Carian Coast is an experience that every sailor should be lucky enough to enjoy. It is a magical place where you can recharge your batteries, disconnect and surrender to its sublime surroundings and timeless ambience. Over the course of Turkey’s long and beautiful summer, good winds and moderate seas make the perfect conditions for a relaxing sailing holiday.

Turkey is a place where east meets west and offers everything from ancient culture and history, bustling towns with sensational cuisine to sleepy fishing villages and deep-water bays luring you to take a swim.

Gökcek is located just 25 km away from Dalaman International Airport and has become one of the most attractive boating spots in Turkey. Dotted with hidden islands, secluded beaches and many coves and bays, its land and clear watered seascapes are irresistible.

The highly facilitated, modern marina is situated in a beautiful setting surrounded by charming pine trees and beaches with crystal clear water that call for a stroll and a dip. It furthermore offers a nice restaurant, Turkish bath & sauna, boutiques, toilets and shower blocks, villa accommodation and Wi-Fi.

If you need to go grocery shopping we have a free service to and from the supermarket in Gökcek for each boat guest. You can also take a taxi boat to a small minimarket across the bay but this one offers a lot less commodities and is more expensive.

In average class restaurants a main course is about 15-25 lira. It is usually free for the mooring of your yacht if you eat in the restaurant that is in connection with the “jetty” (small pier usually without water and electricity). In bigger places where there is water and electricity it cost around 35 lira /night. Many small restaurants in connection with jettys are pretty expensive so the price is about the same if you go to a bigger place and eat in a better restaurant in town.

VIVA ESPAÑA!

Spain is a magnificent Mediterranean sailing destination offering you a chance to explore an adventurous country famous for its flamenco music, fiestas, delicious cuisine, notably their tapas and paella, remarkable architecture, vibrant nightlife and much more. Sail along the Spanish coast and explore vibrant seaside cities, hidden coves and charming fishing villages.

This country is ideal for island hopping – Balearic Islands, with its famous islands of Mallorca, Ibiza and Menorca, is among the most diverse and gorgeous archipelagos in the world. Mallorca, where our base is located, abounds, in white sandy beaches, boasts

crystal clear blue water and enjoys the most relaxing vibe you can imagine.

When not sailing or swimming, dive into the best food from the Balearic menus, mainly consisting of seafood and seasoned meat, find a local "Pastissera" with the sweetest of sweets, or go shopping in the cosy streets of Palma.

Our base is located close to Palma along Mallorca's central south coast.

The weather in the Mediterranean parts of Spain, including the Balearic Islands, is characterised by a moderate Mediterranean climate with hot and dry summers and mild winters. Summer in Mallorca starts at the beginning of June and brings plenty of sun with temperatures from 27 degrees Celsius to above 30 degrees Celsius in July and August.

Coastal cities and towns enjoy 300 days of sunshine annually, with barely any rainy days. All in all, expect clear sky, lots of sunshine and warm sea temperatures.

BELLA ITALIA

There are few places in the world offering such a diverse plethora of experiences like Italy. Apart from being the country with the most UNESCO World Heritage Sites on the planet, it also boasts sunny islands, picturesque landscapes, fierce volcanoes, vibrant cities, lovely beaches and so much more.

Italy is a wonderful country for sailing, with a long-lasting maritime tradition, dating back to the Roman times. Sailing is a great way to reach the best and most secluded sandy beaches, enjoy wonderfully fresh Mediterranean cuisine, visit charming traditional fishing villages and busy resort towns.

Sailing Sardinia, there is no better way to discover this beautiful island. Sardinia provides good cruising and miles of beautiful white sandy beaches. Sheltered anchorages, many islands and fantastic food! Except from amazing sailing, Sardinia features a fine blend of fantastic snorkeling, great shopping in charming villages as well as wine and food in top class.

Italy's coast experiences a typical Mediterranean climate characterized by hot summers, very pleasant temperatures in spring and autumn and mild winters.

The weather on the islands, such as Sicily, Sardinia and the Aeolians, is similar to that of the southern coastline, with very long and dry summers filled with hot sunny days, occasionally interrupted with refreshing gusts of wind in the afternoons. In summertime, temperatures on the coast and islands can exceed 35 degrees Celsius and sea temperatures range between 21-25°C.

EXPLORE SAILING OF YOUR DREAMS

Caribbean sea

Thanks to its idyllic, barely inhabited shores, uncrowded white sand beaches, aquamarine sea and consistent trade winds, the British Virgin Islands are synonymous with a perfect tropical sailing holiday.

Located in the northeast Caribbean Sea, this archipelago of some sixty islands also offers you wonderful snorkelling and diving opportunities, boutique shopping, laid back bars and great food.

THE CARIBBEAN

Unspoilt bounty beaches? Check! Turquoise waters? Check! Excellent restaurants, laid-back vibes and superb snorkelling? Check, check, check! The luxurious British Virgin Islands consist of over sixty islands located in the north-eastern Caribbean Sea and are all equally breath-taking. This, together with warm tropical weather year-round, consistent trade winds and line-of-sight navigation, makes it by far one of the best sailing locations in the world.

Family-friendly, relaxing and absolutely stunning.

Experience the freedom of sailing along the idyllic Sir Frances Drake Channel at your own pace. Move between the larger island such as Virgin Gorda, Jost van Dyke and Tortola.

Enjoy some of Anegada's famous lobster specialities and take short stops at the smaller and more intimate islands and keys.

These spots are perfect to explore the beauty of the colourful underwater world with a huge variety of tropical fish and lush coral reefs. Navigare Yachting offers perfect charters, whether you are looking for a long break or a short getaway.

Take your pick from a wide range of the highest of standards catamarans, monohulls, crewed yachts or bareboats for the more experienced sailor.

Our professional team will assist you along the way to make sure you choose the charter that suits you best. Our fleet is dedicated to sailing, ranging from 31' to 64', all maintained to the highest of standards.

WEATHER INFORMATION

What is important to keep in mind is that the Caribbean high season takes place during the winter months. Therefore, the busiest and most popular time to visit the British Virgin Islands stretches from mid-December until mid-April when the weather conditions are optimal.

Pre-high season begins around mid-November with daytime temperatures reaching 30°C and around 24°C at night. The summer starts in June when temperatures are higher, exceeding 30°C during the day and dropping to the high 20's °C at night.

Please note that the humidity factor is low due to trade winds from off the African coast which blow nearly all year round.

The Caribbean hurricane season lasts from July until October.

In the unlikely event of a hurricane heading directly for the islands, we may need to call your boat back in. Under these circumstances, we will arrange a hotel at your expense for which you will either be refunded or offered credit for the time lost on the boat.

When the weather conditions allow it, you will be able to continue the trip where you left off.

A scenic view of a tropical bay with turquoise water, limestone cliffs, and a traditional Thai longtail boat in the foreground. The boat is dark wood with a white canopy and yellow accents. The water is clear and vibrant, reflecting the surrounding greenery and rock formations. The sky is a clear, bright blue, and the overall atmosphere is peaceful and idyllic.

INFORMATION ABOUT THE ISLANDS

Phuket is located 800 km south of Bangkok, 960 km north of Singapore. Both cities are connected to Phuket Airport with 20 daily direct flight in just 1 1/2 hour trip.

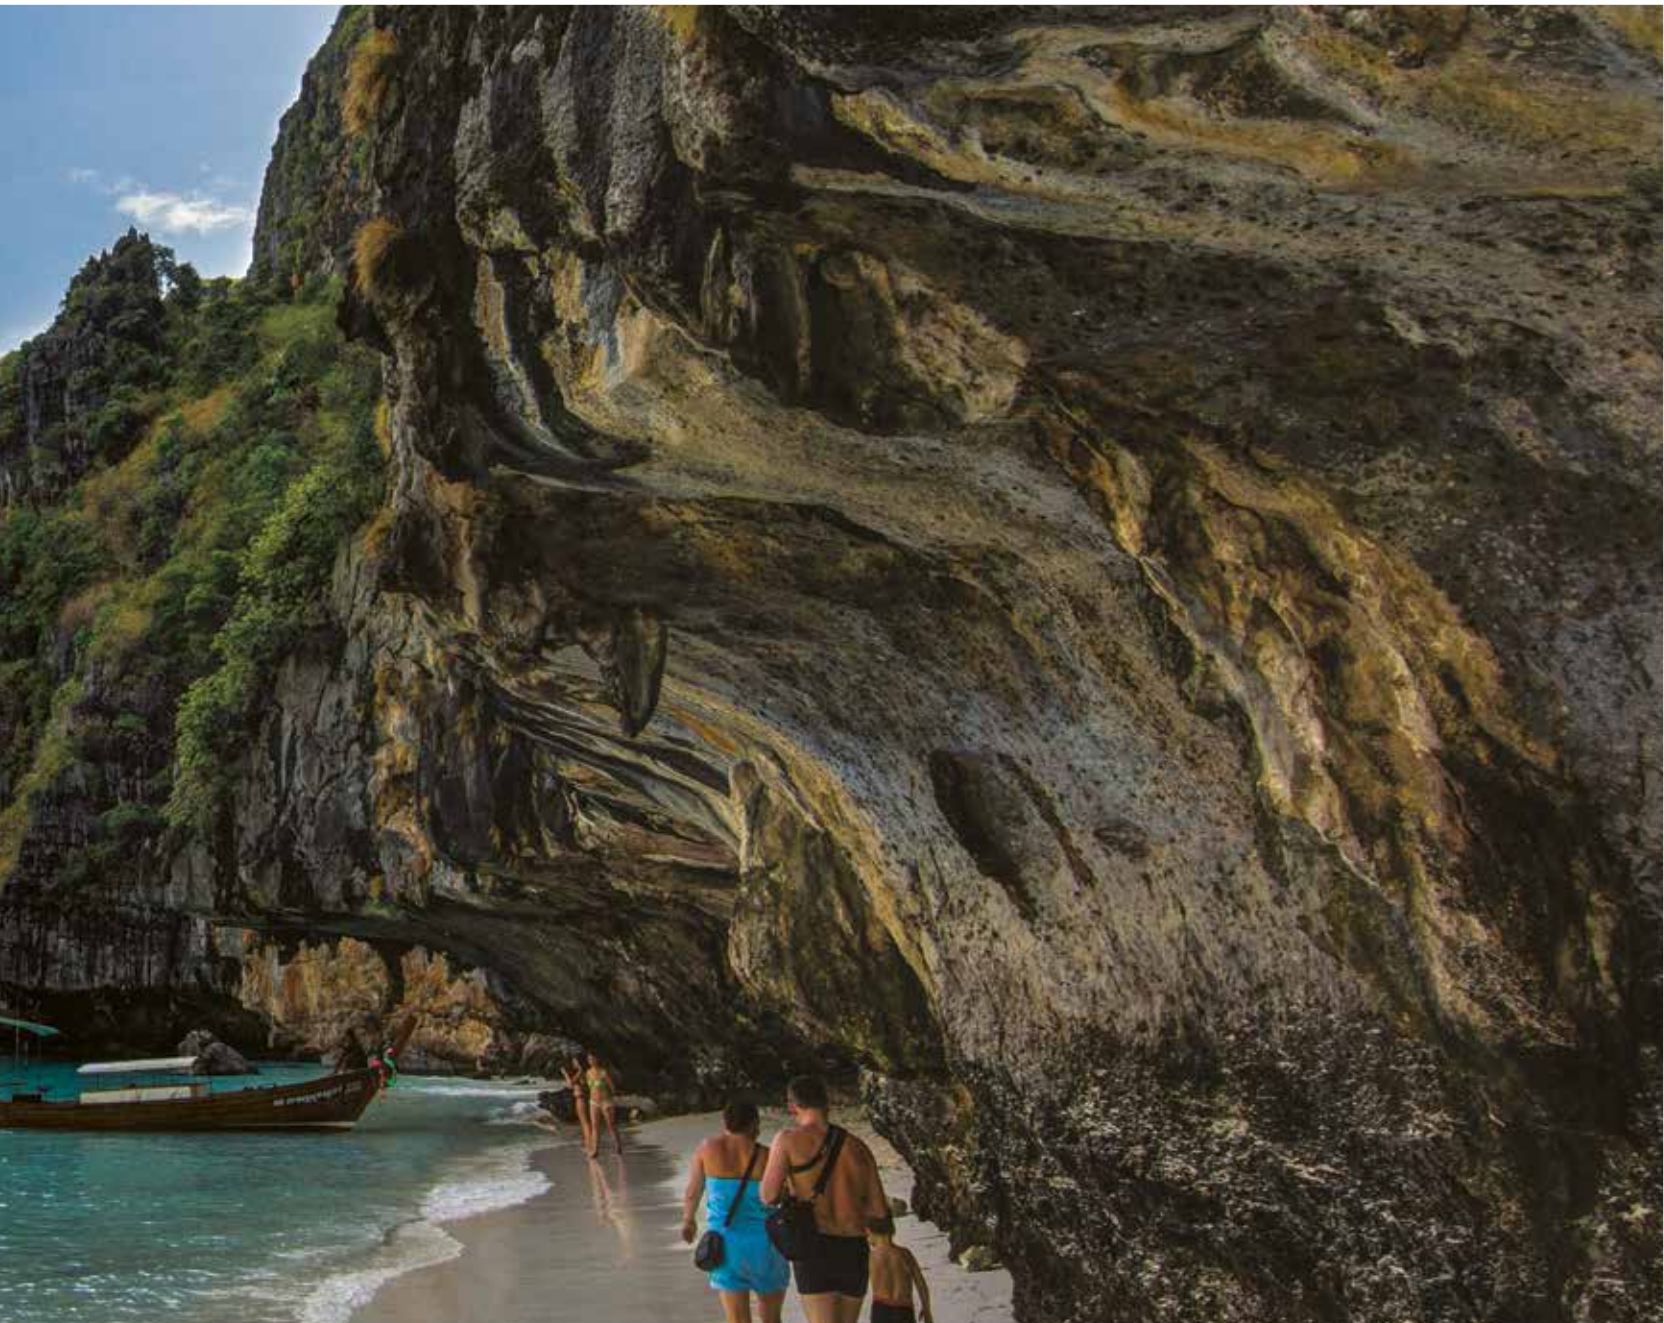

The route that we suggest is mostly focused on the islands south and west of Koh Lanta that are well known for their huge diversity of marine life and long unspoilt beaches. Make sure to visit Phang Nga Bay, the Phi-Phi islands and the Butang Group where you will have the chance to go out to the best snorkelling locations.

The Phang Nga Bay just east outside the base in Yacht Haven is impressive due to extraordinary shapes of massive limestone rocks rising high from emerald waters. The most famous among them is Ko Tapu or the James Bond Island, which appeared in the 1974

“The Man With the Golden Gun” movie, gaining immense popularity.

The Krabi area with Ao Nang, Phra Nang and Railay beaches is astonishing thanks to the green jungle that leads down to shiny white beaches and rock formations with many accessible caves to explore.

Koh Phi Phi is an amazing island with dramatic rocks rising over the bay. You can relax on the beach or enjoy magnificent food at one of the island’s numerous restaurants.

The largest part of Thailand has a tropical wet and dry or savannah climate while the south of the country and part of the east has a tropical monsoon climate. The best time to visit is between November and February when there is very little rainfall and it is not overly hot. In the southern part of the country temperatures are more even year-round as it is closer to the equator. In Thailand you don't need to worry about tropical storms, hurricanes or cyclones. The average temperature varies between 24° and 30° C.

The Maldives

SAILING IN PARADISE

A TROPICAL NATION

With its almost 1200 small coral islands, the tropical nation of Maldives is all about beaches and sunshine. The islands are famous for their white sands, framed by green palm trees and surrounded by the bluest and clearest water you can imagine. Sailing in the Maldives is undoubtedly the best way to explore the magnificent sandy beaches, charming fishing villages and fancy resorts. Due to an abundance of tropical fish thriving around the reefs in the warm Indian Ocean water, the Maldives are also one of the world's most attractive diving and snorkeling destinations.

The Hulhumale Lagoon, where our base is located, is an excellent starting point of your Maldives sailing adventure. In case you choose the Alif Atoll route on your Maldives yacht charter, you will

enjoy a series of colorful snorkeling sites such as the Banana Reef, Genburugau or Maamigili. The latter is famous for whale sharks, and if you're lucky, you might even get a chance to swim with them! Your Maldives yacht charter will also take you around wonderful inhabited and uninhabited islands. Rasdhoo, for example, is an island where you can feel the vibe of the local life and relax at one of the many coffee shops. Enboodhoo, on the other hand, is an uninhabited island, offering a touch of unspoilt nature. The Vaavu Atoll itinerary has just as exciting opportunities in store - snorkeling around the island of Vashugiri, exploring the peaceful local village of Keyodhoo or relaxing at the gorgeous sandy beaches of the Island of Bodumohora... The rule of the thumb is – Whichever sailing route in the Maldives you choose, it is surely the right choice!

The Maldives, a tropical paradise, enjoys a warm climate all year round, making it ideal for sailing. Thanks to the fact that this insular country is located just north of the Equator, the two monsoons that determine the rainfall and wind direction are quite mild. The southwest monsoon, or the rainy season, brings some rain and wind from May to October and the northeast monsoon, the dry season, extends from November to April, and it brings very little wind or rainfall. Air temperatures range from 26-31 degrees Celsius all year round while the ocean temperature is constantly between 28 and 29 degrees.

Sailing with us gives you the ultimate freedom to enjoy everyday as a once-in-a-lifetime experience. On board you can just be yourself. Breathtaking locations are waiting to be explored. A new, exciting world awaits you. Ideal for groups, families, friends or individuals, Leopard 384 "Sun Kissed" and "White Sand" are the perfect choices for your sailing holiday which gives you maximum flexibility and value for money. Swedish climate ranges from oceanic to continental and subarctic climate. However, thanks to the Gulf Stream, the country is overall warmer and drier than it would be expected given its location. Summer temperatures in Stockholm are between 20 and 25 ° C, and days are 18 hours long in the period between mid-June and mid-August.

SWEDISH ARCHIPELAGO

There is nowhere else on earth where you can find such richness of natural islands so close together. The Swedish archipelago consists of as many as 24.000 islands and offers unique combination of clean crisp waters, beautiful nature and history. No need to worry about busy crowds, because due to the size of the archipelago you will find many peaceful spots where you can swim and dive from smooth rocky shores without anyone disturbing you.

The surrounding fairy-tale like wilderness will give you an instant feeling of taking part in an Astrid Lindgren movie. No surprise that part of the Stockholm archipelago has been nominated for a World Heritage site and National Park status. The Swedish archipelago, of course, also offers lots of great restaurants, bars and hotels.

If looking for amazing shops, parks, museums and vibrant nightlife, you should visit the city centre of Stockholm. The old part of Stockholm is a definite must-see and you shouldn't miss the big amusement park called "Gröna Lund".

The Stockholm marina is located on the east coast of Sweden. The Lidingö-Gåshaga charter base is situated around 14 km from Stockholm's city centre, about 49 km from Arlanda Airport, 110 km from Skavsta Airport and about 20 km from Bromma Airport.

The Gåshaga Sealodge restaurant is situated close to our sailboats and you, as a Navigare Yachting customer, are entitled to a discount. There are also supermarkets, bakeries and liquor shops at the Lidingö centre. A tram to the centre leaves every 10 minutes and the ride takes about 15 minutes. The nearest supermarket is only two stops away by tram.

THE WEST COAST

Spend your holiday in the most beautiful archipelago in the world. The gorgeous west coast of the Swedish archipelago is known for its fishing villages, beaches and unique bathing and diving spots. The entire west coast has everything from hidden coves to bustling towns and there is always something to experience.

Visit Sweden's first marine national park "Kosterhavets nationalpark" with over 6000 marine species, experience fresh Swedish seafood at one of its many charming restaurants and listen to outdoor live music! Catch fresh fish directly from the boat and prepare barbeque on a cliff, while the sun goes down in the crystal clear water behind islets and rocks.

In Gothenburg, the second largest city in Sweden, you'll find shops, parks, museums and vibrant nightlife, and, last but not least, the biggest amusement park in Sweden - "Liseberg".

Our charter base, Stenungsund, is located on the west coast of Sweden, about 50 km from the city centre of Gothenburg and 75 km from Gothenburg Landvetter airport. It is located 46 km from Gothenburg City Airport, Säve, and 55 km from the Stena Ferry terminal.

About 300 m from the marina you will find a big supermarket called "Willys", which offers a large selection of groceries. Located about 1 km from the base, you will find Stenungsund Square with a shopping mall where you can buy liquor, bakeries and groceries.

Navigare Yachting Sailing School

Navigare Yachting Sailing School offers structured sailing courses, developed by IYT – International Yacht Training Organization. IYT certificates are accepted worldwide and will allow you to rent a boat on your own upon successful completion of the course.

The 2-week sailing course is held along the coast of Mediterranean with the starting point in Seget Donji (Split area). All our sailing instructors are highly professional and experienced skippers. The boats used for the course are new, comfortable, and modern.

By the completion of the course, you will receive an international license Bareboat Skipper Sail, issued by International Yacht Training Worldwide (IYT).

Obtaining this certificate automatically qualifies for an International Certificate of Competency (ICC). Navigare Sailing school combines the learning of sailing with the sailing itself for 14 days total! We believe that theoretical knowledge is best perceived together with the practice.

Fleet

OUR QUALITY FLEET

Navigare Yachting was founded in 2001 and since then it has acquired more than 250 yachts held at worldwide sites. The yachts are financed by European private investors.

Quality and customer service are absolute key aspects of Navigare Yachting. More than just a turn of phrase, this embodies the values that run through every aspect of the organisation.

Our most powerful marketing tools are our own satisfied customers who recommend us to their business partners, friends and family. To uphold our reputation, the yachts must be in top condition and the customer service should be flawless during the booking process and on site. Every yacht is serviced in the best possible way and a generous sum is reserved for the maintenance, which guarantees a high standard.

JEANNEAU 64

Jeanneau 64, the flagship of the Jeanneau Yachts line, is born of a close partnership between Philippe Briand and Andrew Winch.

The Jeanneau 64 features elegant lines with classic proportions. Careful attention has been paid to the way we spend time on board. Dedicated spaces for relaxation, reading, cooking, dining and sunbathing.

You will find living areas for gathering with family and friends and quiet spaces for communing with natural surroundings - there is a generosity of space! Outdoor living and entertaining is a breeze thanks to an exterior galley that includes a grill/plancha. All cabins feature separate shower stalls, electric toilets, plenty of storage space and luxurious fittings.

LAGOON 52

With its diamond-shaped vertical bows, bevelled hulls, almost levitated deckhouse and tall rig, the Lagoon 52 is no ordinary catamaran, but its originality goes a greater deal further than just its “outer” appearance, or even its interior layout.

The main objective for Lagoon 52 has been to improve the use of space, providing sober, bright and comfortable living spaces, to suggest the “just like home” feeling for the owner and guests on

board. In addition to sleek taut lines that confer a dynamic elegance promising great performance, the Lagoon 52’s exterior design is focused on comfort and safety.

Whatever number of cabins you will have, each has its own personality with large double beds and a private bathroom with independent shower, noble and luxurious materials with soft shades for a harmonious interior.

OCEANIS 51.1

The Oceanis 51.1 is spacious, elegant, cleverly designed, and fast, and successfully revisits the cruising yacht. With taut lines, a new stepped hull and a stylish deck plan, the Oceanis 51.1 is the first of a new generation. Easy to handle, comfortable and smart.

The stepped hull designed by Olivier Racoupeau, extending over a third of the hull, is a major element in the development of the range.

The new hull creates also additional interior space without changing the shape of the bottom, essential for a good performance under sail.

The spacious cockpit, many relaxation and sun bathing areas, as well as an aft swim platform, promise true comfort.

JEANNEAU 440

The new generation of Sun Odysseys reflects harmony on board, and this well-being flows from a clever ergonomic design. The new Sun Odyssey 440 benefits from an entirely new, innovative layout for greater ease of movement about the boat.

At once seaworthy and welcoming, cosy and sporty, masculine and feminine, the Sun Odyssey 440 is as attractive on the interior as on the exterior.

The ambiance is warm and polished, soft and welcoming. On the interior, they feature clean lines and a spacious open layout. Sun Odysseys offer a harmonious design for easy handling and enjoying life on board.

LAGOON 450

Lagoon 450 is the successor of the famous Lagoon 440.

The previous model's top qualities have been retained, of course, some of them being a steering station on the fly bridge accessible from both sides of the cockpit, performance under sail and unsurpassable comfort in the cabins and the salon.

Lagoon 450 is larger than its predecessor and has a bigger sail area and has also had important improvements when it comes to safety, performance and cruising comfort. The cockpit offers space, comfort and panoramic view.

As all the other Lagoons, this model also bears the VPLP (Van Peteghem Lauriot Prévost) signature, the best naval architects in the catamaran sector.

LAGOON 42

This new member of the Lagoon family has style and a strong personality. While keeping a family resemblance and retaining the main features of the latest generation of Lagoons, it shows us a new path: unhurried evolution, a new “organic” approach, in search of harmony between living space and man.

An elegant silhouette, flowing curves which, by virtue of a noticeable acceleration of the lines in the bows and in the new coachroof

design, emphasise the powerful and dynamic nature of this new model.

The influence of the organic architecture resonates in the interior volumes. Attractive moulded wood emphasizes the smooth curves of the interior furnishings, designed with care by Nauta. Once again, the Italian design firm combines elegance and functionality.

Design Philip Briand

SUN ODYSSEY 519

Designed by world-renowned naval architect, Philippe Briand, the new Sun Odyssey 519 incorporates all the latest design developments and innovations. Each detail has been carefully studied to offer high functionality and aesthetic appeal.

This model combines timeless design, impeccable sailing performances and top comfort. This is an exceptionally stable and safe boat which is easy to navigate.

A large section of different sails is enabled by a high-aspect ratio sail plan. The boat can easily be adapted to different types of sailing. The cabin spaces are primarily comfortable and functional and bathrooms are equipped with separate showers. Beds are large and there is plenty of room for your personal belongings. The interior is made of solid, elegant wood. Functionality and aesthetics are perfectly combined in this Jeanneau's masterpiece.

JEANNEAU 54

Every aspect of the Jeanneau 54 is all-new and designed to fit the way you live, like no other yacht in her class. Never before seen solutions are found throughout, from the clever VIP interior layout to the spacious living cockpit and the easy and discreet management of the tender and the innovative aft terrace. Every detail and function has been considered to enhance life aboard and the cruising experience.

BAVARIA 46

The 46 model has been designed to meet the wishes of cruising sailors who were surveyed in order to find out what they thought made a perfect sailing cruiser.

This is a very simple and elegant boat designed with attention to detail in mind with some lovely high-tech innovations. The boat's designers were Farr Yacht Design and Design Unlimited.

What came out as the final product is an innovative boat with a focus on high-end elegance, easy handling and comfort with some features that were only available on mega yachts until now.

The boat is 14.4 metres long and has a 4.35 metre beam. It comes in versions of two or three cabins.

Bavaria C 57

BAVARIA C 57

The Bavaria C57 is a pure expression of class, elegance and the finest craftsmanship. With the design and style of a megayacht, it sets new trends and boasts a long waterline which guarantees high basic speeds. She offers more space, more comfort and more luxury – for more relaxation. Thanks to its large panoramic windows and intelligent lighting concept, this yacht simply looks stunning below deck.
